

NEWFLOW™ WATER FLOW METER

FEATURES:

- Rugged design for oil and gas field environments
- Accurately measures water flow
- Discriminates against gas present in water
- No rebuilding
- No moving mechanical parts to wear out
- Plug resistant
- High reliability
- Low initial and operating cost

METER OPTIONS:

- 1-50 GPM ¾" meter
- 3-80 GPM 1" meter
- Optional meter display with totalizer

OPTIONAL DISPLAY

SPECIFICATION:

Meter accuracy	2%
Supply voltage	10-26VDC
Supply current	<25mA
Output type	OC, pulse (0.5A max) (Note 3)
Output units	Gallons, Barrels (Note 1)
Meter length	6 inches
Coupling	1½ NPT
Line pressure	350 PSI max
Temperature	0-70 °C (Note 2)

NOTES:

- 1) Optional display required for barrels
- 2) Damage can occur if frozen with water
- 3) Output over-voltage, over-current, over-temperature protected
